

Bearback: The World Overland

Imagine jacking it all in, packing your life into a 41-litre pannier and riding into the sunset. Bearback is the story of two GPs who did just that, downing stethoscopes to take off on a motorcycle to see the world. For anyone who has considered escaping the rat race, even for a second, its an inspiring read. Across the deserts of Africa, over the mountains of the Andes, deep into the jungles of Indochina, and beyond the Arctic Circle; 100,000 miles unsupported through six continents and 64 countries. A circumnavigation of epic proportion it was to become one of the longest journeys ever undertaken by a couple on one motorcycle, a journey destined to change their lives forever. Undoubtedly a story of high adventure, determined resourcefulness and personal discovery, it is also a tale of freedom and love. Capturing not only the beauty and diversity, but also the spirit of our fast-changing world, with its outstanding photos and inquiring prose, Bearback has the uncanny ability to take you there...dirt, dust, flies and all.
