

Conan Doyle: His Life and Art

Conan Doyle is a sympathetic and illuminating portrait of the creator of one of the most famous characters in English literature. Hesketh Pearson was interested in the many contradictions in Sir Arthur Conan Doyle - the conventional Scottish doctor who pursued the occult, was interested in spiritualism and fairies, invented the immensely popular Sherlock Holmes yet came in time to detest his creation. Pearson's very readable portrait is by turns admiring, witty and moving. The Author: Born in 1887 at Hawford, Worcestershire, Hesketh Pearson was educated at Bedford Grammar School, then worked in a shipping Office and spent two years in America before beginning a career as an actor in 1911. Until 1931 he worked successfully in the theatre, which provided many insights for his subsequent writing career. Pearson's early works included *Modern Men* and *Mummers* which consisted of sketches of well-known figures in the theatre, and also short stories in *Iron Rations*. *Doctor Darwin*, a biography of Darwin which was published in 1930, was widely acclaimed and established him as one of the leading popular biographers of his day. Subsequently he concentrated on his writing full-time. However, for a period of some seven years he was in the doldrums, following an unsuccessful attempt to get the title *Whispering Gallery* published. He nonetheless persisted, and subsequently had published several important biographies of major figures, such as Conan Doyle, Gilbert and Sullivan and George Bernard Shaw. His skill and expertise was widely recognised, such that for example he was able to gain the co-operation of Shaw, who both contributed and later wrote a critique of his biography, and the executors of Conan Doyle's estate who gave Pearson unprecedented access to private papers. Pearson was a Fellow of the Royal Society

of Literature. He died in 1964. His biographies have stood the test of time and are still regarded as definitive works on their subjects.
