

Janettas Garden: A Cozy Mystery- Dannyboy Pointer Book1 (Garden Series- Dannyboy Pointer)

This is simply the best feel good book you will read if you love animals, gardens and value friendship. Set among the wild, windswept moorlands of the far north of Scotland, this modern mystery is a gentle tale of friendship, dogs, music and the landscape of history woven together with a hint of the supernatural. The dogs save the day and are the real heroes of the story. This tale conjures up the wild scenery and the tumbledown crofts of the far north in a very evocative way and transports you back in history and time to when life was hard and your homes and lives were at the whim of a landlord or laird. This book is enjoyable on many levels but is primarily a good story, well told. It introduces Francesca (Chess) Beckett, her friends and family but most important of all, her dogs. One dog in particular, Dannyboy, is a special Pointer with a sixth sense who brings the historical world, the supernatural and the modern world together. The friends recreate a garden and a horticultural friendship is formed that will carry forward into the second novel in this trilogy.
