

Math Road Trip: An Interactive Discovery-Based Mathematics Unit for High-Ability Learners (Interactive Discovery-Based Units for High-Ability Learners)

In Math Road Trip, students learn about the concepts of addition, subtraction, multiplication, and division of fractions and decimals; explore ratio and proportion; and investigate scale drawing and rate problems as they plan the ultimate vacation for their families. The Interactive Discovery-Based Units for High-Ability Learners, for grades 6-8, provide teachers with opportunities to use exciting and challenging units in their classrooms. These engaging curriculum units culminate in authentic performance situations that provide students with open-ended opportunities to demonstrate academic understanding. Each book in the series contains tiered lessons that teachers can easily modify to meet individual students needs.
