

The Magic G Key: Learning Music!

Our book was created with boundless love for children of preschool age. Our goal is to enable them to understand and gradually learn the basic elements of music through an experiential and creative approach.

We have created a musical tale where the little music notes and the Magic G Key are the main characters, operating within a small group. We gradually introduce, through the immediacy of the story, specific music theory elements. In our first chapter, children discover the music notes through their short stories. Each note is a hero with its own unique personality. Children also observe that notes sit on the staff and on the small piano keyboard. In the second chapter, the notes acquire a more exact and collective existence. Notes participate together in music creation through short musical exercises. Basic music theory elements are presented, such as space and line notes, ascending and descending note scales, dynamics expression (pp, mp, ff), a basic understanding of the quarter-half and whole notes and beat clapping. Let us always embrace our children with love and offer them knowledge and love for music.
