

Ricochet Through Life

My brain tumor journey took me through the world of traditional medicine, which saved my life, and into the realm of alternative medicine, which gave me back my life. I learned not to attack or beat the tumor. Instead, I made friends with the process and came out the other side stronger than I ever realized was possible. I believe we all possess this strength, and sometimes we need challenges such as mine to help us find it. I know the ricochet of my surgery and recovery, more surgery and yet more recovery, was an experience I can now use to help anyone going through medical or life challenges. There are roads and pathways I never knew existed, not just for physical recovery, but mental as well. Life is a journey of living and dying, breaking and healing, losing and finding. My hope is that you find my experiences inspiring and helpful as you make your way through your own challenges in life.
